PROJECTS

EventSphere – Smart Event Management Platform (Full-Stack Project)

Oct 2025

- EventSphere is a comprehensive event management system built with React, Node.js (Express), and PostgreSQL.
- It streamlines how organizations plan, publish, and manage events through role-based access (User, Admin, Super Admin), secure authentication, and a fully automated RSVP and QR-based attendance workflow.
- The platform supports event creation, image/file uploads, real-time attendance validation, communication tools, dashboards, reporting, and activity logging.
- Designed with a modern UI, calendar view, and dark/light mode, EventSphere delivers a scalable and user-friendly solution for managing events end-to-end.
